ABOUT ME

Inquisitive iOS Developer with a strong Swift experience, good knowledge of fundamental design patterns and development practices. Have experience in App Store deployment, know full SDLC, SOLID principles, Scrum and Kanban methodologies, Apple Human Interface and App Store Review Guidelines.

TECHNOLOGY STACK

Dependency management: SPM, CocoaPods, Carthage

Design patterns: MVC, MVP, MVVM, Dependency Injection, Singleton, Observer, Delegate, Decorator, Factory, Facade, Adapter

Frameworks: Alamofire, Firebase, Realm, CoreData, UIKit, SwiftUI, Combine, GCD, XCTest, Quick/Nimble, SnapKit, SwiftLint, KingFisher, Resolver, Charts

Tools & Technologies: API calls, APNs, TestFlight, UI and Unit testing, POP, REST, SQL, Objective-C, CI/CD tools, Terminal, Jira, UI/UX Design (Sketch)

EXPERIENCE

iOS Software Engineer
August 2022 - Present
Diligent Corporation | New York, United States

• Hands on software development: being assigned specific tasks that can be developed and produced within designated time interval. Design, develop, manage, create and maintain technical components and templates.
Key technologies: SwiftUI, Combine, Testing, Jira, CI/CD Tools

iOS Developer
March 2022 - April 2022
Billennium IT Inc. | Warsaw, Poland

• Work with developers, designers and product/business managers to develop new features consistent with a product roadmap. Collaborate as a member of an Agile team to get products developed and completed with best development practices.
Key technologies: Fastlane, Azure DevOps, SwiftyJSON, KingFisher, Localization

Junior iOS Developer
October 2020 - August 2021
Nexio Management LTD | Warsaw, Poland

• Worked as a part of a cross-platform Scrum team to define, design and ship new features. Sufficiently communicate with a team and clients, efficiently search for information. Interfacing with REST webservices over JSON using Alamofire.
Key technologies:, SwiftLint, Delegation, Notification observer, REST, XCTest

iOS Developer (Freelance)
July 2017 - October 2020
Upwork Inc. | Online

• Created 4 projects from scratch to market launch with 5-star feedback. Completed projects on time aligned with a specification and deployed to the App Store.
Key technologies: AppStore Connect, AdMob, in-App purchases, UI Design

EDUCATION

Bachelor of Software Engineering
October 2017 - April 2021
Warsaw School of Information Technology | Warsaw, Poland
GPA 4.72 / 5.0

Strong technical background in fields Algorithms and Data Structures, OOP, Cryptography, Statistics, SQL, C/C++, Java, Python, HTML/CSS and XML.
AWARDS: Best student of a year 2020, Merit-based scholarship 2019 - 2021
